HISTORY & HERITAGE.

EVERY CULTURE TELLS A STORY

Guyana's rich heritage is shaped by the Indigenous people, Africans, East Indians, Europeans, Portuguese and Chinese- six multicultural races creating one of the world's most diverse cultural landscapes. The World Population Review (W.P.R.) in 2026 coined Guyana as the third most culturally diverse country in the Caribbean and South America.

Trade crowded destinations for untouched rainforests roaring waterfalls and extraordinary wildlife. From the pristine Iwokrama Rainforest and the vast Rupununi Savannah, Guyana offers nature in its purest form. Here, every trail, river and sunrise invites you to discover something new.
